

My year in Ham Radio 2020 – Judy KK6GCB

- Participated in Field Day, June 27-28, 2020
 - *Used my 5W hand-held radio*
 - *Successfully established 2-way contact with 4 stations*
 - *Got all the info documented on the ARRL website, credited Aerospace ARC*
- Morning Net check-in
 - *Have been calling in to the 8am Net from home most mornings*
 - *Ran Net Control for two weeks in June 2020 while Kirk was on vacation*
 - *Since then, have run it a few times, planning to run it 3 days Thanksgiving week*
- El Segundo ARG
 - *The repeater that Aerospace uses for morning check-ins has a periodic message about the Monday night Net*
 - *I tried it, and have been a fairly regular caller since then*
 - *Still learning: timing (avoiding doubling), remembering to say my call sign when I'm done*
- Slowly – very slowly – doing more in Ham Radio
